

# AI Reports

## Steps to use the AI Reports feature

1. Ensure you are logged in with you FSC account to in a browser tab  
<https://chat.cyclesai.org/>
2. Open and create your cycle analysis chart first in the FSC cycle analyzer  
Select 1-x cycles to build and activate a cycle composite overlay
3. Active the cycles RSI pane to be shown on the screen
4. Go to the menu and select the entry "AI report"

5. A new tab will automatically open where the report will now be generated live. Be patient as the agent will start to write your report. It might take up to 5min in some cases.
6. You can download the generated report with the button at the bottom in markdown format to save the report.
7. The markdown report will include more details as on the screen. You can see what the agents produced upfront as background research for the chart before the report has been summarized.

## Beta test rules & guidance:

- Do not produce more than 1-2 reports a day!
- Your feedback should focus on what is wrong or seems not to be right in the text summary regarding your individual summary. Your feedback at this time should not focus on "improvements" or new feature requests. The feedback should only focus on improving the quality of the written summary.
- Put feedback to the MWG slack channel what you think could be improved and what the agents currently might not do right. Slack channel for feedback:  
<https://fscmasterswor-vut6666.slack.com/archives/C092H9NNEQ2>
- We do not guarantee this feature to work. It could be taken down at any time.
- Don't expect support for this beta feature.

- **You are not allowed to use the AI report feature to generate content for distribution outside the FSC MWG community.**
