

NinjaTrader Integration

The following video shows how to integrate the cycle tools API within NinjaTrader to use cycle analysis for indicators in NT 8:

<https://www.youtube.com/embed/xfRHLD4PIY0>

Download the NinjaTrader integration script as indicator via the attached zip file to this article.

Requires Cycles API key. An "Analyst" subscription level or higher is required. API endpoints are not available in the "Basic" or "FSC membership" version.
